

B₁₂-2000™ Lozenges

with Folate Acid and B₆

Vitamin B₁₂, an essential vitamin, is an indispensable coenzyme for two very important enzymes having key roles in internal metabolism. The first enzyme ring, methylmalonyl-CoA mutase, is involved in fatty acid metabolism, and the second, methionine synthase is involved in nucleic acid synthesis and methylation reactions.

Folate, like B₁₂, is required for DNA synthesis. Folate is an integral participant in protein synthesis as well as lipid metabolism.

Vitamin B₆ is vital to numerous functions. These functions include immune support, gluconeogenesis, red cell metabolism, as well as lipid and neurotransmitter synthesis, which affects the nervous system and hormone function.

Oral Contraceptive – Drug/Nutrient Interactions

The use of oral contraceptives are associated with decreased folate, vitamin B₁₂ and vitamin B₆ levels. Among the areas of concern are the increased plasma homocysteine concentration (which impacts cardiac health), and in the case of pregnancy after cessation of oral contraceptive use, the increased risk of neural tube defects resulting from folate depletion.

Nutritional Status and Age-related hearing loss in Elderly Women

Concern over B₁₂ and folate status is not limited to women of child bearing age. Poor vitamin B₁₂ and folate status may be associated with age-related auditory function. Two of the most common vitamin inadequacies in the elderly are vitamin B₁₂ and folate.

Product Information

Each bottle of **B₁₂-2000™**

Lozenges provides a full 60 days of nutritional support to help maintain adequate vitamin B₁₂, folate and B₆ levels. Supplied as a great tasting lozenge, **B₁₂-2000™ Lozenges** allows for sublingual uptake of B₁₂ which has been demonstrated to be an effective means of delivery of this important nutrient.

Supplement Facts

Serving Size: 1 Lozenge

	Amount Per Serving	% Daily Value
Vitamin B ₆ (as pyridoxal-5-phosphate)	2 mg	118%
Folate (as calcium folinate)	800 mcg DFE	200%
Vitamin B ₁₂ (as hydroxocobalamin)	2,000 mcg	83,333%

Other ingredients: Sorbitol, mannitol, stearic acid (vegetable source), magnesium stearate (vegetable source) and natural flavor.

This product is gluten and dairy free.

RECOMMENDATION: One (1) lozenge each day as a dietary supplement or as otherwise directed by a healthcare professional.

KEEP OUT OF REACH OF CHILDREN

Store in a cool, dry area.
Sealed with an imprinted safety seal for your protection.

De-Stress™

Dietary Supplement for Reduced Stress & Anxiety

De-Stress™ from Biotics Research Corporation supplies an all natural, bio-active peptide having anxiolytic activity. In other words, **De-Stress™** can be used to reduce stress and anxiety!

Double blind human studies measured physical and psychological responses to stress. Included were measurements of cortisol and ACTH levels, as well as systolic blood pressure. In all cases, **De-Stress™** fared well against controls in response to stress.

In an animal model using a Global Anxiety Score, the active component in **De-Stress™** had a significantly lower score than the control group, the St. John's group and the Kava-Kava group (44.9 vs. 67.4, 66.8 and 68.2 respectively).

The feedback from physicians and other Healthcare Professionals has been tremendous. **De-Stress™** is a success! **De-Stress™** has been shown to be effective at reducing stress and anxiety within 24 - 48 hours, often with the first dose!

De-Stress™

Patented & Effective

U.S. Patent No. 5,846, 939

Supplement Facts

Serving Size: 1 Capsule

	Amount Per Serving	% Daily Value
De-Stress™ hydrolysate † (as hydrolyzed casein concentrate)	150 mg	*

* Daily Value not established

Other ingredients: Capsule shell (gelatin and water).

Contains ingredients derived from milk.

† **De-Stress™** supplies a decapeptide, as determined by its amino acid sequence, having anxiolytic activity. ‡ **This statement has not been evaluated by the U.S. Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

Patent # 5,846,939

This product is gluten free.

RECOMMENDATION: One (1) capsule each day as a dietary supplement or as otherwise directed by a healthcare professional. **De-Stress™** can be taken during the day at time of intense stress or before bedtime.
