

Biotics Research is pleased to announce
the launch of a new product!

CurcumRx™

CurcumRx™ supplies an all-natural turmeric complex, providing up to 50% total curcuminoid content, plus turmeric's 200 other naturally occurring compounds, including phenolic compounds, sesquiterpenes, sterol, fatty acids and more! **CurcumRx™** utilizes a specialized emulsion technology, concentrating turmeric's many nutrients and greatly enhancing bioavailability without the use of nanotechnology, including the use of tweens and other surfactants that may damage lipid membranes. **CurcumRx™** offers significant antioxidant capacity, supports healthy endothelial function, and inhibits the activation and release of NF-κB, thereby downregulating inflammatory mediators.
